We can all make a difference!

Great benefits for you...

A continuous flow hot water system allows you to:

- Enjoy hot water on demand, even on those busy mornings.
- Choose the precise water temperature for absolute safety.
- Conserve water through the 'auto bath fill' feature.

Greater benefits for the environment...

Replacing your electric hot water system with a more environmentally friendly LPG option will significantly reduce greenhouse gas emissions.

ARE YOU ELIGIBLE?

REBATE

Various State Governments recognise the CO₂ reductions made when switching from electric hot water to high efficiency gas units.

You may be eligible for generous rebates!

To find out which hot water rebates you are eligible for, speak to one of our Elgas appliance experts today.
